Asheville, NC 28802-7565

Subject: Biological Laboratory Certification
Environmental Testing Solutions, Inc.

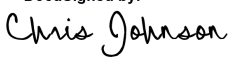

Dear Mr. Sumner,

We are pleased to inform you that Environmental Testing Solutions, Inc. has met all necessary requirements for Biological Laboratory Certification pursuant to regulations established by Title 15A of the North Carolina Administrative Code, Subchapter 02H, Section .1100. Environmental Testing Solutions, Inc. is hereby certified for the following categories and parameters:

| <u>Category</u> | <u>Parameter(s)</u> |
|---------------------------------------|---|
| Acute Toxicity Testing/Invertebrate | <i>Ceriodaphnia dubia, Americamysis bahia</i> |
| Chronic Toxicity Testing/Invertebrate | <i>Ceriodaphnia dubia, Americamysis bahia</i> |
| Acute Toxicity Testing/Vertebrate | <i>Pimephales promelas, Menidia beryllina</i> |
| Chronic Toxicity Testing/Vertebrate | <i>Pimephales promelas, Menidia beryllina</i> |

The attached Certificate validates your program certification through November 1, 2024. Your laboratory will also be subject to onsite inspection and/or analysis of performance evaluation samples as allowed by the regulation. If you require further information, you are encouraged to contact Madison Myers at madison.myers@deq.nc.gov.

Sincerely,

DocuSigned by:

Ecc: Madison Myers

North Carolina Department of Environmental Quality

Division of Water Resources Biological Laboratory Certification Program

In accordance with provisions of §143-215.3(a) (10) and 15A NCAC 02H .1100

Does Hereby Certify That

Environmental Testing Solutions, Inc.

has successfully demonstrated capability and proficiency in performing biological analyses for certified parameters and is qualified to report biological monitoring data to the Division of Water Resources for compliance with National Pollutant Discharge Elimination System regulations.

This certificate does not guarantee validity of all generated data. Certification does indicate that the methodology, equipment, quality control procedures, records, and the laboratory's proficiency in biological sampling and/or analyses have been examined and determined to be acceptable.
