Enclosed is your final report for ERA's QuiK™Response program. Your final report includes an evaluation of all results submitted by your laboratory to ERA. None of the assigned value(s) or acceptance limits were available to your laboratory at or before the time of reporting.

As part of your accreditation(s), you may be required to identify the root cause of any "Not Acceptable" results, implement the necessary corrective actions, and then satisfy your PT requirements by participating in a supplemental (QuiK™Response) or future ERA PT study. ERA's technical staff is available to help your laboratory resolve any technical issues that may be impairing your PT performance and possibly affecting the quality of your routine data. Our laboratory and technical staff have well over three hundred years of collective experience in performing the full range of environmental analyses. As part of our technical support, ERA offers QC samples that can be helpful in helping you work through your technical issues.

The data contained herein are confidential and intended for your use only.

Thank you for your participation in ERA's QuiK™Response program. If you have any questions, please feel free to contact me at 1-800-372-0122.

Thank you for your participation in ERA's QuiK™Response program. If you have any questions, please contact Ellen LaRiviere, QuiK™Response Coordinator, or me at 1-800-372-0122.
